-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 5, 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Akram et al

Akram et al disclose a semiconductor chip (10), a plastic coating (82) made of polymer (silicon nitride) (abstract) with a thickness between 1-2 microns (col. 3, lines 30-35) (as best shown in Fig 8)(re claims 1, 5, 28).

Re claim 2, see Fig 8.

Claims 1-5, 28 are rejected under 35 U.S.C. 102(e) as being anticipated by Farnworth

Art Unit: 2831

Farnworth discloses a semiconductor chip (10), a plastic coating (90c) made of polymer (col 15, lines 5-10) with a thickness between .0001-.0300 inch (col. 14, lines 1-3) which is equivalent to 2.5 microns (as best shown in Fig 16)(re claim 1, 5, 28)

Re claim 2, see Fig 16.

Re claims 3, 4, liquid state, see Abstract and Fig 16.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Farnworth

The teaching of Farnworth as discussed above does not disclose the plastic coating selected from a thermoplastic, colophony, a phthalate resin, a dimethyl glycol phthalate. It would have been obvious to one having ordinary skill in the art at the

Art Unit: 2831

time the invention was made to use a thermoplastic, colophony, a phthalate resin, or a dimethyl glycol phthalate for the plastic coating of Farnworth, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

Claims 10-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Farnworth

The teaching of Farnworth as discussed above does not disclose the feature of claims 10-12.

The feature of claims 10-12 is well known. It would have been obvious to one having ordinary skill in the art at the time the invention was made to include the features with the package of Farnworth for intended purposes.

Response to Arguments

In view of the Appeal's Brief filed on 03-15-2004, PROSECUTION IS HEREBY REOPENED.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) request reinstatement of the appeal.

Art Unit: 2831

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung V Ngo whose telephone number is (571) 272-1979. The examiner can normally be reached on Monday to Thursday 8:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean A Reichard can be reached on (571) 272-2800 EXT 31. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
